Asian Metallurgy 2013

23 - 25 May 2013,
Bombay Convention & Exhibition Centre, Mumbai

A Gateway to Latest Technologies & Equipments in Ferrous and Nonferrous Minerals & Metals Sector

Steelworld & Metalworld are organizing its 9th edition of international trade fair - Asian Metallurgy 2013. Starting from May 23-25, 2013, the exhibition will focus on technology, equipment and products. It will be a unique B2B event for domestic and international companies to reach out to diverse user industries in India through a single platform.

With more than 150 exhibitors, of which one third are expected from 15 overseas countries, visitors will have a unique opportunity to get an overview of new technology trends in ferrous and non-ferrous metals sectors.

Asian Metallurgy 2013, during these three days will provide the market players a perfect opportunity to find new markets, improve business relations with customers, find new customers, put their marketing strategies to the test, promote their brand-names, test new product lines, conclude new projects etc.

Asian Metallurgy Summit

A seminar focusing on the latest technologies, process - know - how's, machinery and equipment in metallurgical sector will be organized alongside the exhibition. Senior metallurgists, technologists, experts and analysts from the global industry will participate in this summit and share their technologies, expertise and analysis

Asian Metallurgy - Virtual

Asian Metallurgy 2013-Virtual is in fact a virtual trade show where the atmosphere of a physical trade show is created on the internet. It consists of a virtual booth which provides the company's general information contact details and product details.

Links will be provided to the company website. By exhibiting in the virtual show, one can save on the added travel expenses, booth design costs, employee compensations and shipping charges incurred at a physical trade show.
