

QuEST Global partners with Airbus to foster innovation among engineering students in India

QuEST Global, the pioneering engineering services provider, has joined hands with global aerospace pioneer Airbus to foster innovation among engineering students in India through their flagship annual applied engineering contest Ingenium. Aiming to build enthusiasm and passion for engineering among the academic community, Ingenium encourages engineering students across the country to demonstrate their innovative ideas and creative potential. The grand finale of this one-of-its-kind event will be held on October 5, 2018 at Bengaluru.

More than 4,500 students from various engineering colleges in the country have registered for this year's Ingenium, which intends to be a melting pot of the brightest engineering minds. In the eighth edition of the India-wide talent search competition, aspiring engineers will showcase ingenious ideas to solve the various challenges around Industry 4.0 revolution. The winners of Ingenium will be entitled to a jackpot of exciting prizes, including a visit to the Airbus facility in Wichita, USA, along with a cash prize of INR 1 lakh, and to top it all, an opportunity to work with QuEST.

Lauding QuEST's initiative to promote young engineering talent, John O'Leary, Vice President, Airbus Americas said, "We are delighted to partner with QuEST for Ingenium and extend our support to nurture the vast engineering talent in India. Events like Ingenium can unearth the hidden gems among the student community and help them showcase their innovative ideas to the world. Airbus has been associating with QuEST for Ingenium ever since they launched the event, and we are happy to see this platform acquire fresher dimensions and grow by geometric proportions every year."

Commenting on how the event is helping engineering students, Dr. Ramdas M Pai, President and Chancellor, Manipal Academy of Higher Education, Manipal said, "Ingenium gives students the best opportunity to solve complex engineering problems using their own innovative ideas. In an earlier edition of Ingenium, our students won the first prize for a Solar Electric Road Vehicle. Constant interactions with the engineering fraternity during the event, and the constructive feedback from industry experts have helped them widen their perspective on the subject, and thus expand their career horizons." ■

Titli Cyclone: Vizag Steel Contributes Rs 30 Lakhs To AP CM Relief Fund

RINL, the corporate entity of Visakhapatnam Steel Plant (popularly known as Vizag Steel) responded positively to the call given by N Chandrababu Naidu, Hon'ble Chief Minister of Andhra Pradesh that

the major corporate sectors in Visakhapatnam to generously contribute to the victims of Titli cyclone that devastated several villages in Srikakulam district.

P K Rath, CMD, RINL-VSP called on N Chandrababu Naidu, Hon'ble Chief Minister of Andhra Pradesh at Palasa in Srikakulam district late evening of Wednesday and presented a cheque for Rs 30 lakhs on behalf of the Company towards "CM's Relief Fund" as a responsible corporate citizen under Corporate Social Responsibility initiative.

Rath also informed the Hon'ble

Chief Minister that RINL employees will contribute another Rs 65 lakhs towards CM Relief Fund. KC Das, Director (Personnel), senior officials of RINL were present on the occasion. Chandrababu Naidu appreciated the fine gesture of RINL management for coming forward to help the cyclone victims of Srikakulam district.

P K Rath, CMD, RINL-VSP presented the cheque to N Chandrababu Naidu, Hon'ble Chief Minister in the presence of KC Das, Director (Personnel) RINL, Hon'ble Ministers of AP Govt and Srikakulam MP according to the press release. ■
