

## Bentley Institute organizes the first edition of Product Training Partner Summit 2018 in Bengaluru, India

BentleyInstitute recently organized its first ever Product Training Partner Summit 2018 on September 14 in Bengaluru, India.

The objective of the Summit was to establish a knowledge-sharing platform to apprise the authorized Product Training Partners about Bentley Institute's vision, upcoming plans, current industry trends and opportunities to enable Bentley Institute and its stakeholders align their growth paths.

Bentley Institute's Product Training Partners from India, Middle East and South East Asia attended the Summit. Vinayak Trivedi, Vice President, Global Head, Bentley Institute delivered the key note speech about 'Going Digital' with Bentley's technology, introduced the audience to various facets of Bentley Institute and the variety of programs offered by the Institute to help existing and future industry professionals advance in their infrastructure careers. He also stressed on the effects

and solutions of the existing skill gap in the infrastructure industry and potential solutions and avenues available for up-skilling of talent.

Vinayak Trivedi expressed, "In the current scenario, the focus of the infrastructure industry professionals is to execute projects within limited time in a cost-effective manner, without losing focus on digitalization. Foreexisting industry professionals and future professionals to be employable, it is important for them to upskill their knowledge with practical experience of using cutting-edge technologies and tools. Our Product Training Partner Program offered by Bentley Institute enables them to achieve it". Rishabh Tandon, Manager, Product Training Partner Program, Bentley Institute informed the audience about the program vision and the way forward.

Sudipto Goswami, Director, Bentley Institute Press, shared inputs about the various content initiatives for training the industry professionals and briefed about the Building Information Modeling (BIM) fundamental course & assessments.

The Summit also hosted technology experts like Sajit Nair, Director Product Management, Bentley Systems, who shared insights on the critical need for developing sustainable infrastructure and the solutions offered by Bentley for civil structures, airports, tunnels, culverts, tanks, bridges, buildings and plants. He further explained the opportunities which 'Product Training Partners' can leverage from such a diverse portfolio.

## 'Rashtriya Khel Protsahan Puruskar' to RINL

RINL-VSP is the proud recipient of Rashtriya Khel Protsahan Puruskar-2018. The Award was bestowed on RINL-VSP in recognition of its contribution in the field of Identifying and Nurturing of Budding Talent in sports.

Ram Nath Kovind, Hon'ble President of India presented the award to P K Rath, CMD, RINL-VSP at a glittering function held in New Delhi on Tuesday night (25th Sep). PK Rath while congratulating the collective of RINL in this connection, mentioned that VSP is not only known for

operational efficiency and innovation but also encouraging talent in the field of sports. It is worth mentioning that RINL has identified and nurtured several sports persons at district, state and national level and also supporting them by giving scholarships etc. It is also promoting community sports in the township and villages.

RINL has created sports infrastructure i.e an exclusive Hockey Stadium, International Skating Rink, Col CK Naidu Ukku Stadium for Cricket, Indoor Stadium

with wooden flooring for Volley Ball, exclusive open courts for Lawn Tennis, Volleyball, Shuttle Badminton etc. These efforts resulted in bagging various medals by talented children etc at the State, National and International levels.

It is for the first time in the history of RINL as a Corporate entity that a National level award has been achieved in the field of Sports by it.
